

UPDATED

Request for Proposals: Boardroom Wireless Microphones, Dante DSP, and Audio Routing System

Prepared for: Cherry Capital Airport / Northwestern Regional Airport Authority
Prepared by: Land Information Access Association (LIAA)
RFP date: July 20, 2026

1. Project Summary

Cherry Capital Airport is requesting proposals from qualified professional audio/AV vendors to design, provide, install, configure, tune, document, train staff on, warrant, and support a professional boardroom audio system.

The project includes a professional digital UHF wireless microphone system, Dante-enabled DSP/automatic mixing, conference-room-to-equipment-closet audio routing, integration with the existing speaker amplifier path, a physical in-room volume control, a small rolling equipment/charging cart, commissioning, training, documentation, warranty, and support. The Airport prefers a Sennheiser EW-DX EM 4 DANTE or similar professional digital UHF system; approved equivalents may include Audio-Technica D50-Series, Shure ULX-D, or other systems that meet this RFP.

This RFP is for the audio system only. Video recording, YouTube account setup, video publishing workflow, streaming equipment, camera work, and other video-related implementation are excluded and may be handled separately by TVC, Airport IT, and/or LIAA under a separate scope. Any coordination for testing and verification of audio and video systems concurrently is included in this scope of work.

2. Procurement Schedule

Milestone	Target date/time
RFP issued	Monday, July 20, 2026
Mandatory vendor site visit	No later than 4:00PM Tuesday, August 11, 2026
Vendor questions due	4:00PM Wednesday, August 12, 2026
Addendum / question responses posted	Approximately Thursday, August 13, 2026
Proposals due	4:00PM Monday, August 17, 2026
Anticipated review / recommendation	Wednesday, August 19, 2026
Anticipated award	Tuesday August 25, 2026

All site visits shall be coordinated through NRAA by contacting Frank Simkins – IT manager – at frank.simkins@tvcairport.com

3. Existing Conditions and Planning Assumptions

The Airport boardroom includes existing AV, control, speaker, rack, and network infrastructure. Each proposing vendor must review existing conditions during the mandatory site visit. The selected vendor must confirm final site conditions before equipment ordering.

Known or expected conditions include:

- The conference room and the equipment/server closet are separated by approximately 60 feet down a hallway.
- Existing in-room speakers are powered by amplifiers located in the equipment/server closet.
- Existing Biamp DSP equipment is located in the equipment/server closet, but this RFP does not require the vendor to reuse or repurpose it.
- Existing Crestron control equipment may currently control room audio levels or mute behavior through the existing audio system.
- Existing network/Dante infrastructure may be present, but the vendor must verify cable paths, switch capabilities, VLAN/security requirements, Dante clocking, QoS, and ownership with Airport IT.
- Wireless receivers should not be assumed to work reliably from the equipment closet because the closet is not in or near the conference room.
- The selected design must locate wireless receiver antennas, receivers, or remote antennas appropriately for reliable in-room RF performance.

The vendor may reuse existing Biamp, Crestron, network, rack, cable, or speaker infrastructure only where technically appropriate and supportable. Reuse is optional, not required.

4. Required Site Review and RF Coordination

The selected solution must be based on professional site review and RF coordination. Vendors must treat the Airport as a high-RF-congestion environment due to aviation, airline, rental car, Wi-Fi, mobile hotspot, public safety, business, and other radio-frequency activity in and around the terminal.

Vendor proposals must include:

- Confirmation that the vendor attended the mandatory site visit or received an Airport-approved waiver.
- A plan for RF spectrum review and coordination before final equipment ordering.
- Identification of the proposed wireless operating band(s) and why they are appropriate for this environment.
- Confirmation that the proposed wireless microphone system does not rely on congested Wi-Fi bands such as 2.4 GHz, 5 GHz, or 6 GHz Wi-Fi.
- Antenna placement, receiver placement, and rolling-cart/location assumptions.
- Contingency approach if RF review shows the initially proposed equipment or band is not appropriate.
- Any recommended alternate equipment path for different RF findings.
- Any Airport IT, network, power, rack, cart, or cabling dependencies.

Final wireless equipment must not be ordered until RF conditions and site constraints have been reviewed and accepted by the Airport.

5. Wireless Microphone and Channel Requirements

The proposed system must support at least 16 simultaneous wireless microphone channels:

- 13 wireless board/table tablestand or gooseneck microphones.
- 2 wireless handheld microphones for public comment or general use.
- 1 wireless lavalier/bodypack microphone.

The receiver configuration may be shared across compatible transmitter types. For example, Sennheiser EW-DX, Audio-Technica D50, Shure ULX-D, or equivalent systems may use the same receiver family for tablestand/gooseneck, handheld, and bodypack transmitters. The vendor must confirm that all 16 required transmitters can operate simultaneously, reliably, and legally within the selected frequency plan.

Board/table microphones must be wireless tablestand/gooseneck-style units with a simple charging workflow. Staff should not be required to individually plug 13 microphones into loose USB cables after each meeting.

The proposal must identify:

- Wireless receiver make/model and quantity.
- Transmitter make/model and quantity by type.
- Gooseneck microphone make/model and connector type.
- Handheld capsule type.
- Lavalier or headset microphone type.
- Frequency band(s).
- Charging dock/base/charger quantities.

- Spare batteries, if used.
- Expected battery runtime for normal board meetings.
- Expansion capacity, if available.

6. Basis-of-Design and Approved Equivalents

The preferred basis-of-design is a Sennheiser EW-DX EM 4 DANTE or similar professional digital UHF wireless system, using compatible tablestand/gooseneck, handheld, and bodypack transmitters.

Approved equivalent systems may include:

- Sennheiser EW-DX EM 4 DANTE with compatible EW-DX tablestand/gooseneck, handheld, and bodypack transmitters.
- Audio-Technica D50-Series 4-channel Dante receiver system with compatible desk stand, handheld, and bodypack transmitters.
- Shure ULX-D with compatible gooseneck, handheld, and bodypack transmitters.
- Other professional digital UHF wireless systems that meet or exceed these performance requirements.

Systems relying primarily on Wi-Fi-band operation, consumer wireless microphones, non-professional conference speakerphones, or unmanaged low-cost meeting microphone systems are not acceptable as base proposals.

Vendors may propose alternates, but alternates must be clearly labeled and must explain differences in RF approach, channel count, transmitter compatibility, charging, Dante/network routing, DSP/automatic mixing, price, schedule, and support.

7. Dante-Enabled DSP and Automatic Mixing Requirements

The proposed system must include a professional Dante-enabled DSP or room processor sized and programmed for this project. The existing Biamp DSP does not need to be repurposed. If the vendor proposes to reuse it, the proposal must explain the exact role and support model.

The DSP must provide:

- Discrete input processing for the required wireless microphone channels, preferably via Dante from the wireless receivers.
- Professional automatic mixing for all required microphone channels.
- Gain structure, EQ, high-pass filtering, dynamics, routing, and output processing appropriate for public-meeting speech.
- Feedback-resistant in-room reinforcement.
- Output limiting or level protection to prevent accidental excessive room volume.

- Separate finished audio feeds for room speakers, recording, Zoom/remote meeting use, and future livestreaming.
- AEC or conferencing processing if required for the proposed Zoom/remote-meeting workflow.
- Dante/network integration that is reliable, documented, and supportable by the vendor and Airport IT.

Acceptable DSP platforms may include Q-SYS, Biamp Tesira, Symetrix, BSS, or approved equivalent professional Dante-capable DSP platforms. If a Sennheiser EW-DX basis is proposed, the vendor should identify any available manufacturer integration assets for the proposed DSP/control platform. Q-SYS is not mandatory if the vendor can meet all requirements with another professional DSP platform.

Receiver mixed outputs, basic receiver DSP, or wireless-system management software will not be accepted as substitutes for a properly configured room automatic mixer unless the complete room, recording, Zoom, and future livestream workflows pass the acceptance tests.

8. Conference Room to Equipment Closet Routing

The vendor must propose and justify the most reliable architecture for routing audio between the conference room and the equipment/server closet.

The design must account for these constraints:

- Wireless receivers or receiver antennas likely need to be located in or near the conference room for reliable RF performance.
- The existing in-house speaker amplifiers are located in the equipment/server closet approximately 60 feet away.
- The finished audio system must feed the existing speaker amplifier path or a replacement amplifier path approved by TVC.
- The vendor must avoid visually disruptive equipment placement in the conference room.
- Any new cable, network, or Dante routing must be reliable, serviceable, labeled, and documented.

Acceptable architecture examples include:

Architecture	Description	Vendor must address
Receivers/cart in conference room, DSP in closet	Wireless receivers send discrete Dante channels over network to DSP in the equipment closet; DSP feeds local amplifiers directly.	Dante path, switch/VLAN/QoS, clocking, receiver/antenna placement, cart power, and network reliability.

Architecture	Description	Vendor must address
Receivers/cart and DSP in conference room	Wireless receivers feed a local DSP; DSP sends finished Dante or analog audio to the equipment closet, where it is converted as needed for the amplifiers.	Conference-room equipment appearance, cart/rack security, Dante-to-analog endpoint in closet, control wiring, and service access.
Hybrid endpoint approach	Existing Biamp or another Dante/analog endpoint in the closet receives a finished audio feed or routes audio to the amplifiers.	Exact endpoint role, programming access, latency, gain staging, failure modes, and support ownership.

The vendor may propose a different architecture if it better meets the project goals. The proposal must include a signal-flow diagram showing microphone receivers, DSP, Dante/network links, physical volume control, amplifier handoff, room speakers, recording feed, Zoom feed, and future livestream feed.

9. Rolling Equipment and Charging Cart

The system must include a small rolling equipment and charging cart for the conference room. The cart must be suitable for a public boardroom environment and should be specified in a light-colored wood finish or black finish.

All conference-room-located wireless-system components must fit in, on, or immediately at this single small rolling cart unless TVC approves another location during design review. This includes charging stations, receiver equipment if located in the room, antenna distribution or remote antenna equipment where practical, network/Dante endpoints, power distribution, accessories, and the DSP if located in the conference room. Equipment located in the equipment/server closet is excluded.

The cart must:

- Serve as the charging station stand for the wireless board/table microphones.
- Provide a clean, staff-operable location for microphone charging after meetings.
- Fit comfortably in the conference room without obstructing doors, walking paths, sightlines, ADA access, or emergency egress.
- Include lockable casters.
- Provide cable management so charger power cords, receiver cables, antenna cables, and network cables are not visibly tangled.
- Include adequate ventilation for any mounted or enclosed electronics.
- Include secure mounting or shelving for receivers, chargers, network/Dante equipment, power distribution, and accessories as needed.

- Include power distribution appropriate for the proposed equipment and location.
- Present a finished appearance appropriate for regular board meetings.

The proposal must include the proposed cart make/model or furniture specification, dimensions, finish, layout, power approach, charger placement, receiver placement, cable management approach, and any lock/security features.

10. Physical In-Room Volume Control

The completed system must include a physical output volume control in the conference room for normal staff operation. The control may be a wall-mounted rotary knob, wall-mounted slider, dimmer-style controller, or similarly simple physical control.

The physical control must:

- Control the main in-room speaker volume for the boardroom.
- Be intuitive for non-technical staff.
- Provide predictable level changes without requiring staff to use a laptop, rack equipment, receiver menus, or a complex touch-panel path.
- Include appropriate maximum/minimum limits so staff cannot easily make the system unusably loud or fully misconfigured.
- Be labeled clearly.
- Integrate with the proposed DSP/control system.
- Be provided under a key lockable cover, if not integrated into the Crestron system.

The vendor may reuse or integrate with existing Crestron control if appropriate. If relying on existing Crestron, the proposal must identify required programming, responsible party, assumptions, and whether physical volume control will continue to work if the Crestron touch panel or processor is unavailable. If not, the vendor must provide a standalone or DSP-native physical control.

11. Audio Performance Requirements

The audio system must provide:

- Clear close-proximity speech pickup for board members, staff, presenters, and public comment.
- Reliable simultaneous operation of the required microphone count.
- Professional automatic mixing that reduces level buildup as more microphones become active.
- Speech capture that avoids clipped word starts, distracting gates, pumping, uneven seat-to-seat levels, and excessive room noise.

- Clean in-room speaker reinforcement without excessive echo, feedback, comb filtering, muddiness, or distracting level changes.
- A clean finished audio feed for recording.
- A clean finished audio feed for Zoom or other remote-meeting use.
- A clean path for future livestreaming, even if livestreaming is not part of this audio RFP.
- Simple staff operation for normal meetings.
- Reasonable accommodation of flexible boardroom layouts where practical.

12. Vendor Scope of Work

The selected vendor must provide a complete installed and commissioned audio system, including:

- Site verification and RF coordination.
- Final audio system design, equipment selection, procurement, and delivery.
- Wireless receiver, antenna, charging, cart, rack, DSP, cabling, and Dante/network layout.
- Installation of microphones, receivers, chargers, antennas, DSP equipment, interfaces, cabling, control hardware, and rack/cart accessories.
- DSP programming, automatic mixing, gain structure, routing, echo control if needed, output limiting, and finished output feeds.
- Physical in-room volume control installation and programming.
- Integration with existing speakers and amplifier path.
- Integration with existing Crestron, Biamp, Dante, network, and AV infrastructure only where appropriate and approved.
- Room tuning, feedback control, and testing of all microphone channels.
- Testing of in-room reinforcement, recording feed, Zoom/remote-meeting feed, and future livestream-ready audio feed.
- Training for Airport staff and Airport IT.
- As-built documentation, warranty, and post-installation service/support.

13. Selected Vendor Deliverables

The selected vendor must provide:

- Final equipment list and system design narrative.
- Updated signal-flow diagram or system block diagram.
- RF coordination notes and wireless channel/frequency plan.
- Cart layout, rack layout, and cabling/labeling notes.

- Dante/network configuration summary, including switch/VLAN/QoS/clocking assumptions where applicable.
- DSP/routing summary.
- Automatic mixing configuration summary.
- Physical room volume control description.
- Control-system notes if any Crestron/control integration is performed.
- Test and commissioning checklist.
- Staff operating guide, warranty terms, service/support options, and final training session.

14. Training, Warranty, and Service

Proposals must include training for regular operators and Airport IT. At minimum, training must cover:

- Microphone setup and charging.
- Cart use, power, and cable handling.
- Handheld and lavalier/bodypack use.
- Basic meeting start/end checks.
- Physical room volume control.
- Mute behavior.
- Public comment microphone handling.
- Recording/remote-meeting feed checks.
- Basic troubleshooting.
- When to contact the vendor for service.

Proposals must include warranty terms and available service/support options after installation. The Airport requires a supportable professional system with a clear post-installation service path.

15. Proposal Response Requirements

Each proposal should include:

1. Company name, contact information, and project lead.
2. Relevant experience with professional wireless systems, public meeting rooms, airports, government facilities, live sound, or similarly RF-sensitive environments.
3. Proposed solution narrative.
4. Proposed microphone system brand/model family or basis of design.
5. Confirmation that the proposed wireless system avoids congested Wi-Fi bands and is appropriate for the Airport RF environment.

6. Confirmation that all required transmitter types can use the same receiver family and operate simultaneously.
7. RF coordination and site-review approach.
8. Equipment list with quantities.
9. Description of charging/docking approach.
10. Rolling equipment/charging cart specification.
11. DSP/automatic mixing approach.
12. Conference room to equipment closet routing approach.
13. Physical in-room volume control approach.
14. Integration approach for existing speakers, amplifiers, Crestron, Biamp, Dante, network, and rack infrastructure.
15. Installation, programming, tuning, and commissioning approach.
16. Training, documentation, warranty, and service approach.
17. Schedule assumptions, equipment availability, and estimated equipment lead times.
18. Pricing, with equipment, labor, optional items, and service/support clearly separated.
19. Assumptions, exclusions, owner responsibilities, dependencies, alternates, and RF/site contingencies.
20. Acknowledgment that a performance and payment bond will be required, and all associated costs have been included in the bid amount.

16. Pricing Format

Vendors should provide pricing in a format that allows the Airport to understand the complete installed cost.

At minimum, pricing should separate:

- Wireless microphone system equipment.
- Receivers, antennas, antenna distribution, and RF accessories.
- DSP/automatic mixing hardware.
- Dante/network audio interfaces, switches, adapters, or endpoints.
- Rolling equipment/charging cart.
- Charging docks, charging stations, batteries, and spare batteries.
- Physical in-room volume control hardware.
- Installation labor.
- DSP/configuration/automatic mixing programming labor.
- Crestron/control programming labor, if required.
- RF coordination, commissioning, training, and documentation.
- Performance & Payment Bond costs

- Warranty/service agreement options.
- Optional alternates.
- Owner-provided items or dependencies.
- Estimated lead time for major equipment.

Vendors must clearly identify exclusions. The Airport may reject proposals that omit, leave unclear, or shift major required work to the Airport without explanation.

17. Evaluation Criteria

The Airport expects to use weighted scoring and may rely on LIAA technical review and recommendation support during evaluation. Final procurement decisions remain with the Airport.

Criterion	Weight
Technical fit and meeting-room audio performance	25
RF coordination approach and high-congestion risk management	10
DSP/automatic mixing, Dante routing, and room-to-closet architecture	15
Vendor qualifications, comparable experience, and supportability	15
Charging cart, staff operation, physical volume control, training, and documentation	10
Price and overall value	20
Responsiveness, clarity, assumptions, and exclusions	5
Total	100

The Airport is not required to select the lowest-priced proposal if a higher-priced proposal provides better technical fit, lower RF/operational risk, stronger supportability, clearer scope, better staff operation, or better long-term value.

18. Acceptance Testing

The selected vendor must perform acceptance testing before final completion. Acceptance testing must include:

- All 13 board/table microphones active and routed through the automatic mixer.
- Two handheld microphones and one bodypack/lavalier microphone active and routed through the automatic mixer.
- Demonstration that all 16 wireless channels can operate simultaneously.

- Verification of in-room speaker reinforcement at usable levels without feedback.
- Verification of physical in-room volume control.
- Verification of charging workflow and battery status workflow.
- Verification of room speaker feed to the amplifier path in the equipment closet.
- Verification of recording feed.
- Verification of Zoom/remote-meeting feed, if included in the final scope.
- Verification of future livestream-ready finished audio feed.
- Confirmation of RF frequency plan and antenna placement after installation.
- Staff training and handoff.

19. Questions and Addenda

Vendor questions must be submitted in writing to the Airport by the deadline listed in the procurement schedule. The Airport anticipates posting written responses or an addendum after the question deadline.

Submit all questions via email by the time identified to frank.simkins@tvcairport.com.

20. Submission Instructions

Submit the proposal via email in a PDF format less than 10MB in size by the time identified to **frank.simkins@tvcairport.com and bob.nelesen@tvcairport.com**. It is the proposer's responsibility to verify that the email proposal has been received.

21. Airport Reservations

It is your responsibility before submitting a proposal to:

1. Examine and carefully study the proposal documents, including any addenda and the other related data identified in the documents.
2. Become familiar with all federal, state, and local laws, rules, codes, and regulations that may affect cost, progress, or performance of the work.
3. Obtain and carefully study (or assume responsibility for doing so) all data concerning conditions that may affect cost, progress, or performance of the work or which relate to any aspect of the materials, means, methods, techniques, sequences, and procedures of performance to be employed by you, including any specific materials, means, methods, techniques, sequences, and required by the proposal documents.

4. Agree at the time of submitting the proposal that no further examinations, investigations, explorations, tests, studies, or data are necessary for the determination of its proposal for performance of the work as proposed and within the times and in accordance with the other terms and conditions of the proposal documents.
5. Become aware of the general nature of the work to be performed by the NRAA and others that may affect or relates to your work.
6. Promptly give Frank Simkins, IT Manager, written notice of all conflicts, errors, ambiguities, or discrepancies that you discover in the proposal documents and confirm that the written resolution thereof by the NRAA is acceptable.
7. Determine that the proposal documents are generally sufficient to indicate and convey understanding of all terms and conditions for the performance of the services.

The submission of a proposal will constitute an incontrovertible representation by you that you have complied with every requirement of this paragraph, that without exception the proposal is premised upon performing and furnishing the services required by the proposal documents and applying any specific materials, means, methods, techniques, sequences, and procedures of performance that may be shown or indicated or expressly required by the proposal documents, that you have given NRAA written notice of all conflicts, errors, ambiguities, and discrepancies that you have discovered in the proposal documents and the written resolutions thereof by the NRAA are acceptable to you, and the proposal documents are generally sufficient to indicate and convey understanding of all terms and conditions for performing and furnishing the services.

All materials submitted in response to this RFP shall become the property of the NRAA and shall be considered a part of the public record of the Airport except for any proprietary financial information that should be clearly marked as confidential.

The NRAA reserves the right not to award any service order, to reject any or all proposals, including without limitation, nonconforming, nonresponsive, unbalanced, or conditional proposals. The NRAA further reserves the right to reject the proposal of anyone whom it finds, after reasonable inquiry and evaluation, to be non-responsible or non-responsive. The NRAA may also reject the proposal of anyone if the NRAA believes that it would not be in the best interest of the NRAA or serve the NRAA to make an award to that person or entity. The NRAA also reserves the right to waive any or all formalities or nonconformities, and to negotiate contract terms with the individual or entity either prior to selection or after selection. Any such

waiver shall not affect the validity of the contract or affect the right of the NRAA to enforce any provision of the contract.

By submitting a proposal, you waive any and all claims against the NRAA related to the NRAA's selection of the successful proposal.

NRAA will not pay for any information solicited or obtained. Further, the NRAA will not be liable for any costs incurred in proposal preparation or contract negotiation.

More than one proposal for the same work from an individual or entity under the same or different names will not be considered. Reasonable grounds for believing that anyone submitting a proposal has an interest in more than one proposal for the work may be cause for disqualification of that person or entity and the rejection of all proposals in which that person or entity has an interest.

In evaluating proposals, the NRAA will consider whether the proposals comply with the prescribed requirements, all relevant material submitted and other relevant information obtained by the NRAA in determining whether you are capable of providing the Services of the type and scope needed for the project.

In evaluating proposals, the NRAA will consider the qualifications of the person or entity. The NRAA may conduct such investigations as the NRAA deems necessary to establish the responsibility, qualifications, and financial ability to perform the work in accordance with the contract documents.

If the contract is to be awarded, the NRAA will award the contract to the firm or persons whose proposal is in the best interests of the service to be performed and the NRAA.

Non-Discrimination. No person shall be excluded from participation in or otherwise discriminated against in connection with the award and performance of the Concession Agreement because of race, color, religion, national origin, sex, age, height, weight, marital status, physical or mental disability, family status, sexual orientation, or gender identity.

The awarded vendor will be required to execute a Service Order with NRAA. Vendors shall note any comments or exceptions in their proposal submission.

22. Required Proposal Submission Form

Pages 15, 16, and 17 shall be submitted as a matter of responsiveness with the Vendor's proposal.

By submitting this Proposal, the Proposer certifies that neither the Proposer, its principals, nor any employees, subcontractors, or agents proposed to work on this Project have been convicted or found not guilty of by reason of insanity of any of the following:

- (1) Forgery of certificates, false marking of aircraft, and other aircraft registration violation; 49 U.S.C. 46306.
- (2) Interference with air navigation; 49 U.S.C. 46308.
- (3) Improper transportation of a hazardous material; 49 U.S.C. 46312.
- (4) Aircraft piracy; 49 U.S.C. 46502.
- (5) Interference with flight crew members or flight attendants; 49 U.S.C. 46504.
- (6) Commission of certain crimes aboard aircraft in flight; 49 U.S.C. 46506.
- (7) Carrying a weapon or explosive aboard aircraft; 49 U.S.C. 46505.
- (8) Conveying false information and threats; 49 U.S.C. 46507.
- (9) Aircraft piracy outside the special aircraft jurisdiction of the United States; 49 U.S.C. 46502(b).
- (10) Lighting violations involving transporting controlled substances; 49 U.S.C. 46315.
- (11) Unlawful entry into an aircraft or airport area that serves air carriers or foreign air carriers contrary to established security requirements; 49 U.S.C. 46314.
- (12) Destruction of an aircraft or aircraft facility; 18 U.S.C. 32.
- (13) Murder.
- (14) Assault with intent to murder.
- (15) Espionage.
- (16) Sedition.

- (17) Kidnapping or hostage taking.
- (18) Treason.
- (19) Rape or aggravated sexual abuse.
- (20) Unlawful possession, use, sale, distribution, or manufacture of an explosive or weapon.
- (21) Extortion.
- (22) Armed or felony unarmed robbery.
- (23) Distribution of, or intent to distribute, a controlled substance.
- (24) Felony arson.
- (25) Felony involving a threat.
- (26) Felony involving—
 - (i) Willful destruction of property;
 - (ii) Importation or manufacture of a controlled substance;
 - (iii) Burglary;
 - (iv) Theft;
 - (v) Dishonesty, fraud, or misrepresentation;
 - (vi) Possession or distribution of stolen property;
 - (vii) Aggravated assault;
 - (viii) Bribery; or
 - (ix) Illegal possession of a controlled substance punishable by a maximum term of imprisonment of more than 1 year.
- (27) Violence at international airports; 18 U.S.C. 37.
- (28) Conspiracy or attempt to commit any of the criminal acts listed in this paragraph above.

Traverse City, MI

Cherry Capital Airport - TVC

The Proposer agrees to notify the Airport Authority immediately if, during the term of the Contract, it becomes aware that any individual assigned to the Project no longer meets this certification. The Owner reserves the right to require the removal of any individual from the Project or to take other appropriate action if this certification is found to be false or if criminal history is determined to be incompatible with the requirements of the Project.

The undersigned certifies, under penalty of perjury, that the foregoing statements are true and correct.

23. Scope Boundaries

This RFP is for the professional boardroom audio system only.

This RFP does not include:

- Video recording workflow.
- Video publishing workflow.
- Dedicated recording computer.
- Camera installation or camera replacement.
- Livestream video production equipment.

The selected audio vendor must provide clean audio feeds required by those future workflows, but those workflows will be handled under separate authorization or separate purchase order.

Sincerely,

Northwest Regional Airport Authority
Frank Simkins – IT Manager
Bob Nelesen, PE – Airport Engineer

Description of Services		Amount
Boardroom Wireless Microphones, Dante DSP, and Audio Routing System Dated:		In accordance with the attached proposal costs to not exceed: \$xxx

Authorized by: _____

Dated: _____

Date of Board Approval (if applicable): _____

Vendor's Initials: _____

TERMS AND CONDITIONS:

THE VENDOR, BY RENDERING SERVICE AND PROVIDING GOODS TO THE NORTHWEST REGIONAL AIRPORT AUTHORITY (NRAA) HEREBY AGREES TO ALL PROVISIONS LISTED BELOW:

1. **Non-Discrimination.** The Vendor agrees not to discriminate against an employee or applicant for employment with respect to hire, tenure, terms, conditions or privileges of employment, or a matter directly or indirectly related to employment because of race, color, religion, national origin, sex, age, height, weight, marital status, physical or mental disability, family status, sexual orientation, or gender identity. A breach of this covenant may be regarded as a material breach of this Service Order.
2. **Assignment.** This performance of the Service in this Service Order may be assigned by the Vendor to a qualified subcontractor.
3. **Venue.** Any and all suits for any and every breach of this Service Order shall be instituted and maintained exclusively in the District or Circuit Court for the County of Grand Traverse, State of MI.
4. **Dispute Resolution.** Prior to either party instituting any suit, any claim or dispute under the Service Order shall be submitted to non-binding mediation. The Vendor shall include a similar mediation agreement with all subcontractors and subconsultants under direct contract with the Vendor.
5. **Independent Contractor.** The relationship of the Vendor to the NRAA is that of an Independent Contractor. The Vendor and the personnel employed by the Vendor shall not be deemed to be agents or employees of the NRAA, shall not hold themselves out as employees of the NRAA and shall not be entitled to any fringe benefits the NRAA affords its employees.
6. **Required Insurance.** The Vendor and the Vendor's subcontractor shall provide an insurance certificate evidencing the following selected insurance prior to performing services under this Service Order:

		Required
General Liability - Comprehensive	\$ 1,000,000 per occurrence	X
Professional Liability -	\$ 2,000,000 per occurrence	
Premises and Operations		
Independent Contractors		
Completed Operations Hazard		
Contractual Liability		
Explosion, Collapse or Underground Damage		
Owners Protective	\$1,000,000	
All Risk Builders	Total Amount	
Environmental Pollution Liability	\$1,000,000 per occurrence	
Automobile Liability	\$500,000 combined single limits	X
Owned, Non-owned & Hired	\$250,000 each person \$100,000 property damage each occurrence	
Employer's Liability	Statutory	X

Additionally, Vendor and Vendor's subcontractor shall provide the NRAA with an endorsement to its insurance policy stating that the NRAA is named as additional insured with the following language appearing either on the certificate or an attachment: *Northwest Regional Airport Authority, its board members, officers, employees and agents are named as additional insureds.* A minimum of 10 days advance written notice will be provided in the event of cancellation.

7. Workers Compensation. The parties agree to maintain at all times while work is being performed under this Service Order, suitable workers compensation insurance pursuant to Michigan law and will, upon receipt of this Service Order, provide a certificate of insurance or copy of state approval for self-insurance to the NRAA Chief Executive Officer.
8. Interpretation. This Service Order shall be governed by the laws of the State of Michigan both as to interpretation and performance.
9. Indemnification. To the fullest extent permitted by law, the Vendor shall defend (if allowed by law), indemnify and hold the NRAA, its agents, officials and employees harmless from and against all claims, damages, losses and expenses, including reasonable attorney fees and defense costs, arising out of or connected in any way with the performance of this Service Order which is caused in whole or in part by the Vendor's negligent, careless or intentional acts or omissions, or that of any agent, employee, or subcontractor of the Vendor, excluding only those damages, liabilities or costs attributable to the sole negligence of the NRAA.

Vendor agrees: (a) to defend, hold harmless and indemnify NRAA, its successors and customers against all claims, demands, losses, suits, damages, liability and expenses (including reasonable attorney fees) arising out of any suit, claim or action for actual or alleged direct or contributory infringement of, or inducement to infringe, any United States or foreign patent, trademark, copyright or mask work right by reason of the manufacture, use or sale of the goods or services ordered, including infringement arising out of compliance with specifications furnished by NRAA, or for actual or alleged misuse or misappropriation of a trade secret resulting directly or indirectly from Vendor's actions; (b) to waive any claim against NRAA under the Uniform Commercial Code or otherwise, including any hold harmless or similar claim, in any way related to a claim asserted against Vendor or NRAA for patent, trademark, copyright or mask work right infringement or the like, including claims arising out of compliance with specifications furnished by NRAA; (c) to grant to NRAA a worldwide, nonexclusive, royalty-free, irrevocable license to repair and have repaired, to reconstruct and have reconstructed the goods ordered hereunder; and (d) assign to NRAA all right, title and interest in and to all trademarks, copyrights and mask work rights in any material created for NRAA under this Order.

The Vendor expressly acknowledges and agrees that this indemnification provision is intended to be as broad and inclusive as is permitted by law and that if any portion thereof is held invalid, it is agreed that the balance shall, notwithstanding, continue in full legal force and effect. This provision shall survive the termination of this Service Order and is not intended to waive the defense of governmental immunity that may be asserted by the NRAA in an action against it. The Vendor shall include a provision substantially similar to this paragraph in the contract between the Vendor and the Vendor's subcontractor performing the Service.

Under no circumstances shall the NRAA defend, indemnify, or hold harmless the Vendor.

10. Time. Time is of the essence in rendering the services described in this Service Order.
11. Pollution Indemnification. The Vendor's obligation to defend, indemnify and save harmless the NRAA shall include any and all claims, liabilities, losses, damages, actual attorney fees and settlement expenses arising from any pollution liability, damage, or loss resulting or arising out of or in connection with the Vendor's performance of any work relating to this contract based upon any act, omission, or negligence of the Vendor or its employees, agents, servants, subcontractors or any other person or persons, including but not limited to the NRAA, its agents, officers or employees. The obligations to defend, indemnify and hold harmless contained herein shall exclude only those matters in which the claim arises out of allegation of the sole negligence of the NRAA, its offers, agents or employees. This indemnification agreement shall not be limited by reason of insurance coverage of any type. This provision shall survive termination of this Service Order and is not intended to waive the defense of governmental immunity that may be asserted by the NRAA in an action against it. The Vendor shall include a provision substantially similar to this paragraph in the contract between the Vendor and the Vendor's subcontractor performing the Service. **CHECK HERE IF APPLICABLE: _____.**
12. Third Party Beneficiaries. This Service Order confers no rights or remedies on any third party, other than the parties to this Service Order and their respective successors and permitted assigns.
13. Freedom of Information Act. The Vendor acknowledges that the NRAA may be required from time to time to release records in its possession by law. The Vendor hereby gives permission to the NRAA to release any records or materials received by the NRAA as it may be requested to do so as permitted by the Freedom of Information Act, MCL 15.231 *et seq.*
14. Standard of Conduct. The Vendor and the Vendor's contractor shall render all services under this Service Order according to generally accepted professional practices.
15. Termination.
 - A. For Fault. If the NRAA Chief Executive Officer determines that the Vendor has failed to perform or will fail to perform all or any part of the services, obligations, or duties required by this Service Order, the NRAA Chief Executive Officer may terminate or suspend this Service Order in whole or in part upon written notice to the Vendor specifying the default and in the case of suspension shall specify a reasonable period not more than thirty (30) days nor less than fifteen (15) days from receipt of the notice, during which time the Vendor shall correct the violations referred to in the notice. If the Vendor does not

correct the violations during the period provided for in the notice, this Service Order shall be terminated upon expiration of such time. Upon termination, any payment due the Vendor at time of termination may be adjusted to cover any additional costs occasioned the NRAA by reason of the termination. This provision for termination shall not limit or modify any other right to the NRAA to proceed against the Vendor at law or under the terms of this Service Order.

B. Not for Fault. Whenever the NRAA Chief Executive Officer determines that termination of this Service Order in whole or in part is in the best interest of the NRAA or in the event that termination is required by any state or federal agency, the NRAA Chief Executive Officer may terminate this Service Order by written notice to the Vendor specifying the services terminated and the effective date of such termination. Upon termination, the Vendor shall be entitled to and the NRAA shall pay the costs actually incurred in compliance with this Service Order until the date of such termination.

16. Ownership of Documents. All documents produced by Vendor under this Service Order shall remain the property of NRAA and may not be used by Vendor for any other endeavor without the written consent of NRAA. Any reuse of documents without the written consent of NRAA shall be at Vendor's sole risk, without liability or legal exposure to NRAA, its officers, directors, employees, agents, or volunteers.
17. Billing/Payments. NRAA shall provide payment to Vendor within 30 days from receipt of an approved invoice for the services rendered.
18. Incorporation of Other Documents. The NRAA Boardroom Wireless Microphones, Dante DSP, and Audio Routing System RFP dated July 8, 2026 and the Vendor's proposal dated [DATE], is incorporated herein by reference and made a part hereof. To the extent of a conflict between the terms of the proposal and this Service Order, the terms and conditions of this Service Order shall control.
19. Additional Provisions:

- A. VENDOR WARRANTS THAT ALL GOODS AND ALL WORK PERFORMED HEREUNDER OR PURSUANT HERETO WILL BE OF MERCHANTABLE QUALITY; FREE FROM ALL DEFECTS IN DESIGN, WORKMANSHIP AND MATERIALS. WHEN VENDOR HAS KNOWLEDGE OF A PARTICULAR PURPOSE FOR WHICH THE GOODS ARE PURCHASED, THEY WILL BE FIT FOR SUCH PARTICULAR PURPOSE. THE GOODS ARE PROVIDED IN STRICT ACCORDANCE WITH THE SPECIFICATIONS AND/OR SAMPLES, DRAWINGS, DESIGNS OR OTHER REQUIREMENTS (INCLUDING PERFORMANCE SPECIFICATIONS) PROVIDED BY NRAA. THE WARRANTIES CONTAINED IN THIS SECTION SHALL BE IN ADDITION TO, AND SHALL NOT BE CONSTRUED AS RESTRICTING OR LIMITING ANY WARRANTIES OR REMEDIES OF NRAA, EXPRESS OR IMPLIED, WHICH ARE PROVIDED BY LAW. ANY ATTEMPT BY VENDOR TO LIMIT, DISCLAIM OR RESTRICT ANY SUCH WARRANTIES OR REMEDIES OF NRAA, BY NOTICE OR ACKNOWLEDGEMENT IN ACCEPTING OR PERFORMING THIS ORDER SHALL BE VOID.
- B. Vendor warrants title to all goods sold and services supplied. All materials, and any inventions (whether or not patentable), works of authorship, trade secrets, ideas, concepts, trade names and trade or service marks (collectively "Inventions") created or prepared for NRAA, shall belong exclusively to NRAA. Vendor hereby assigns all Inventions to NRAA and its assigns, except for any works for hire which do not require an assignment to vest ownership in NRAA. To the extent copyrights exist in any works of authorship, such works shall be deemed, to the extent legally permitted, to be works made for hire as that term is used in the Copyright Act of 1976. NRAA shall have the right, at NRAA's option and expense, to seek protection by obtaining patents, copyright registrations, trademark registrations, or other recordation, registrations, and filings related to proprietary or intellectual property rights. Vendor agrees at no charge to execute, and to cause its employees to execute, such documents including such further assignments, applications, and conveyances and to supply such information as NRAA shall request, in Order to permit NRAA to protect, perfect, register, record and maintain its rights in the Inventions and effective ownership of them throughout the world.
- C. NRAA reserves the right at any time to direct changes, or cause Vendor to make changes, to drawings and specifications of the goods or to otherwise change the scope of the work covered by this Order, including work with respect to such matters as inspection, testing, place or time of delivery, or quality control, and Vendor agrees to promptly make such changes; any difference in price or time for performance resulting from such changes shall be equitably adjusted by NRAA after receipt of documentation in such form and detail as NRAA may direct.
- D. Vendor agrees that NRAA shall have the right to enter Vendor's facility at reasonable times to inspect the facility, goods, materials and any property of NRAA covered by this Order. NRAA's inspection of the goods, whether during manufacture, prior to delivery or within a reasonable time after delivery, shall not constitute acceptance of any work-in-process or finished goods. NRAA may inspect and reject all nonconforming goods and services within a reasonable period of time after delivery without regard to whether payment has been made. NRAA may choose, at Vendor's risk and expense, to either hold nonconforming goods pending Vendor's instructions or ship them to Vendor's address shown on the face of this Order.

- E. To the extent NRAA rejects goods as nonconforming, Vendor shall replace such goods with conforming goods. NRAA shall hold nonconforming goods for disposition in accordance with Vendor's instructions at Vendor's risk. Vendor's failure to provide written instructions within ten (10) days, or such shorter period as may be commercially reasonable under the circumstances, after notice of nonconformity shall entitle NRAA, at NRAA's option, to charge Vendor for storage and handling, or to dispose of the goods, without liability to Vendor. Payment for nonconforming goods shall not constitute an acceptance thereof, limit or impair NRAA's right to assert any legal or equitable remedy or relieve Vendor's responsibility for latent defects.
- F. NRAA shall have no obligation to pay for any item until a correct invoice for the item is received at the "bill to" address shown on the face of this Order. Payment of invoices shall not constitute acceptance of the product and/or services and shall be subject to adjustment for errors, shortages, defects in the product and/or services, or other failure of Vendor to meet the requirements of the Order. NRAA may at any time set off any amount owed by NRAA to Vendor against any amount owed by Vendor or any of its affiliated companies to NRAA.
20. Authority to Execute. The parties agree that the signatories appearing above have authority and are duly authorized to execute this Agreement on behalf of the parties to the Agreement.
21. Suspension and Debarment. Vendor certifies, by entering into the Agreement, that neither it nor its principals are presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from entering into the Agreement by any federal agency or department or any agency or political subdivision of the State of Michigan. The term "principal" for purposes of the Agreement means an officer, director, owner, partner, key employee, or other person with primary management or supervisory responsibilities, or a person who has a critical influence on or substantive control over the operations of the Vendor.
22. ~~Buy American: Unless otherwise approved in advance by the FAA, the NRAA will not acquire or permit any Vendor to acquire any steel or manufactured products produced outside the United States to be used for any expense which funds are provided for under the NRAA's CARES Act and CRRSA Grant Agreements.~~
23. Ban on Texting While Driving: In accordance with Executive Order 13513, Federal Leadership on Reducing Text Messaging While Driving, October 1, 2009, and DOT Order 3902.10, Text Messaging While Driving, December 30, 2009, all text messaging while driving when Vendor is performing any work for, or on behalf of, the Federal government, including, but not limited to, work relating to the CARES Act and CRRSA Grant Agreements, is expressly prohibited.
24. AIP Required Contract Provisions:

GENERAL CIVIL RIGHTS PROVISIONS

The Vendor agrees to comply with pertinent statutes, Executive Orders and such rules as are promulgated to ensure that no person shall, on the grounds of race, creed, color, national origin, sex, age, or disability be excluded from participating in any activity conducted with or benefiting from Federal assistance.

This provision binds the Vendor and subcontractors from the bid solicitation period through the completion of the contract. This provision is in addition to that required by Title VI of the Civil Rights Act of 1964.

A. Compliance with Nondiscrimination Requirements:

During the performance of this contract, the Vendor, for itself, its assignees, and successors in interest (hereinafter referred to as the "Vendor"), agrees as follows:

1. **Compliance with Regulations:** The Vendor (hereinafter includes consultants) will comply with the Title VI List of Pertinent Nondiscrimination Acts and Authorities, as they may be amended from time to time, which are herein incorporated by reference and made a part of this contract.
2. **Nondiscrimination:** The Vendor, with regard to the work performed by it during the contract, will not discriminate on the grounds of race, color, or national origin in the selection and retention of subcontractors, including procurements of materials and leases of equipment. The Vendor will not participate directly or indirectly in the discrimination prohibited by the Nondiscrimination Acts and Authorities, including employment practices when the contract covers any activity, project, or program set forth in Appendix B of 49 CFR part 21.
3. **Solicitations for Subcontracts, including Procurements of Materials and Equipment:** In all solicitations, either by competitive bidding or negotiation made by the Vendor for work to be performed under a subcontract, including procurements of materials, or leases of equipment, each potential subcontractor or supplier will be notified by the Vendor of the Vendor's obligations under this contract and the Nondiscrimination Acts and Authorities on the grounds of race, color, or national origin.
4. **Information and Reports:** The Vendor will provide all information and reports required by the Acts, the Regulations, and directives issued pursuant thereto and will permit access to its books, records, accounts, other sources of information, and its

facilities as may be determined by the sponsor or the Federal Aviation Administration to be pertinent to ascertain compliance with such Nondiscrimination Acts and Authorities and instructions. Where any information required of a contractor is in the exclusive possession of another who fails or refuses to furnish the information, the Vendor will so certify to the sponsor or the Federal Aviation Administration, as appropriate, and will set forth what efforts it has made to obtain the information.

5. Sanctions for Noncompliance: In the event of a Vendor's noncompliance with the non-discrimination provisions of this contract, the sponsor will impose such contract sanctions as it or the Federal Aviation Administration may determine to be appropriate, including, but not limited to:

- a. Withholding payments to the Vendor under the contract until the Vendor complies; and/or
- b. Cancelling, terminating, or suspending a contract, in whole or in part.

6. Incorporation of Provisions: The Vendor will include the provisions of paragraphs A.1 through A.5 in every subcontract, including procurements of materials and leases of equipment, unless exempt by the Acts, the Regulations, and directives issued pursuant thereto. The Vendor will take action with respect to any subcontract or procurement as the sponsor or the Federal Aviation Administration may direct as a means of enforcing such provisions including sanctions for noncompliance. Provided, that if the Vendor becomes involved in, or is threatened with litigation by a subcontractor, or supplier because of such direction, the Vendor may request the sponsor to enter into any litigation to protect the interests of the sponsor. In addition, the Vendor may request the United States to enter into the litigation to protect the interests of the United States.

Title VI List of Pertinent Nondiscrimination Acts and Authorities

To the extent applicable to Vendor's performance under this contract, during the performance of this contract, the Vendor, for itself, its assignees, and successors in interest (hereinafter referred to as the "Vendor") agrees to comply with the following non-discrimination statutes and authorities; including but not limited to:

- Title VI of the Civil Rights Act of 1964 (42 U.S.C. § 2000d et seq., 78 stat. 252) (prohibits discrimination on the basis of race, color, national origin);
- 49 CFR Part 21 (Non-discrimination in Federally-Assisted programs of the Department of Transportation—Effectuation of Title VI of the Civil Rights Act of 1964) including amendments thereto;
- The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, (42 U.S.C. § 4601) (prohibits unfair treatment of persons displaced or whose property has been acquired because of Federal or Federal-aid programs and projects);
- Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. § 794 et seq.), as amended (prohibits discrimination on the basis of disability); and 49 CFR part 27 (Nondiscrimination on the Basis of Disability in Programs or Activities Receiving Federal Financial Assistance);
- The Age Discrimination Act of 1975, as amended (42 U.S.C. § 6101 et seq.) (prohibits discrimination on the basis of age);
- Airport and Airway Improvement Act of 1982 (49 U.S.C. § 47123), as amended (prohibits discrimination based on race, creed, color, national origin, or sex);
- The Civil Rights Restoration Act of 1987 (P.L. 100-259) (broadened the scope, coverage and applicability of Title VI of the Civil Rights Act of 1964, the Age Discrimination Act of 1975 and
- Section 504 of the Rehabilitation Act of 1973, by expanding the definition of the terms "programs or activities" to include all of the programs or activities of the Federal-aid recipients, sub-recipients and contractors, whether such programs or activities are Federally funded or not);
- Titles II and III of the Americans with Disabilities Act of 1990 (42 U.S.C. § 12101, et seq) (prohibit discrimination on the basis of disability in the operation of public entities, public and private transportation systems, places of public accommodation, and certain testing entities) as implemented by U.S. Department of Transportation regulations at 49 CFR Parts 37 and 38;
- Title IX of the Education Amendments of 1972, as amended, which prohibits you from discriminating because of sex in education programs or activities (20 U.S.C. § 1681, et seq)
